Comments:

Tate: Incredible to work with, was very good at translating what we did in part e (and some of f) into scripts efficiently and accurately. I felt like we had a good chemistry working on the scripts for e and f.

Dominic: Was very reliable on the sections he worked on. Unfortunately, he was busy with work on a few days we were meeting up, but it is understandable.

Shadan: Started off very rocky because he offered almost no input on anything from d-f. He was just on call repeating the things we said. Did not know how to code much but he did a very good job formatting and writing some portions of the lab report.
